

## Texecom offers a complete solution, tailored to your needs:

- A full range of innovative security products that are stylish, future ready and easy to use
- Reliable Alarm Signalling and Professional Monitoring that ensures your security is always on even when you're not
- App based convenience and control

## Why is Texecom Monitor, professional monitoring the best choice?

- Alarm Signalling is changing and Texecom Monitor is **future-ready**, **secure** and **reliable**, ensuring you are always protected
- When our system detects a break-in, fire, or other emergency, it **automatically** and **immediately** notifies the experts at the alarm receiving centre who, within seconds, alert the relevant emergency services—fire, police, ambulance, response teams
- We know that **seconds matter** in an emergency and Texecom has the infrastructure to provide you with the protection and peace of mind you deserve

All the benefits of a professionally monitored system plus the convenience and control you need

### 24/7 convenience and control

The specially designed, Texecom Connect app lets you access and control your security system directly from your smartphone or tablet.

### Smarter home and business

Make your home or business smarter. Connect all your devices so you can control and automate your lighting, heating, power, video, appliances, etc., all with one app, Texecom Connect.

### Your data. Your settings. Always secure

All settings and automation controls are safely contained and all notifications and communications are fully encrypted and secure.

### Managed access

Texecom Connect puts you in control of who can use the app and what level of access they have. You decide. You control.

### Capture and watch real time footage

View live security footage from your Texecom Connect app, anywhere you are, giving you 24/7 peace of mind.

### Create and activate custom Modes

Custom pre-set controls allow you to activate your security, your way, with one click.
